

Building on a new future together

Picture by the weeklyletter nr. 2 2025

Quotes: “Do I, do you, do we have the courage to build a new future together?

What does this ask of us as committed people who want to realise the body of thought of the Apostolic Society? What steps are we going to take in this regard?

Do we really want to contribute to healing instead of hurting, to remedy instead of destroying? To peace, to daring to be gentle (meek), to inspiration? To hope?”
