

Ambassadors of diversity

Picture by the weeklyletter nr. 23 2025

Quotes: *“As Apostolics we have a responsibility in this regard. We believe that all life flows from one source and that living in connection is the key to a meaningful and purposeful life. This also means accepting others as they are and loving him, her or them unconditionally. This does not come naturally and requires practice in observing carefully. Can we look for what connects us and transcends us, like Lorenzo's grandmother?”*

Comment: “People—ambassadors—can connect with the core of things. Diversity, diversity, and inclusion, with respect and recognition through connection, are a living force.
